

PROPOSED SYSTEM AND MOBILE APP

Book. Cut. Glow. Come back.

One platform for walk ins, scheduled bookings, house calls, skin care and retail, built to run across every branch.

Three ways a client reaches us

Same profile, same price list, same history. Only the setting changes.

Walk in

- Reception logs the client in seconds.
- Live queue shows the wait and who is next.
- New faces get an account on the spot.

Book ahead

- Pick branch, barber, service and time.
- Deposit optional, reminder automatic.
- No show and late rules applied fairly.

House call

- Client sets address and preferred time.
- Travel fee added by distance zone.
- Barber gets the job card on their phone.

Every visit, whatever the channel, lands on one client record and one daily sales report.

First visit, sorted in under a minute

What happens when someone new walks through the door.

1

Log at reception

Name and phone number. That is all we ask for.

2

Account number issued

System creates MB-0143 style ID tied to the branch.

3

WhatsApp welcome

Number, price list and app link sent to their phone.

4

Profile completed

Client adds their cut, allergies and skin notes.

5

Recognised everywhere

Any branch, any barber, full history on screen.

Welcome to Magnetic Barbershop. Your account number is MB-0143. Save this chat to book, check prices or send us the cut you want. Reply MENU any time.

Sample WhatsApp welcome message

Scan, pick your cut, sit down

A QR code at the door and at every chair does the queueing for us.

Scan and check in

Client scans, confirms who they are, joins the queue.

Live wait time

Screen shows position and rough minutes left.

Pick from our style gallery

Our own photos, named and numbered so orders are clear.

Or upload a reference

They send the picture they saw online. Barber sees it first.

STYLE GALLERY

01 Low fade

02 Bald fade

03 Taper

04 Line up

05 Afro shape

06 Dread retwist

Each style carries its own price and time slot.

Everything we sell, in one menu

Not just cuts. Every service and product is logged the same way.

Cuts and beards

Fades, shape ups, beard trims, hot towel shaves, kids cuts.

Wash, steam and dry

Shampoo, steam treatment, blow dry, scalp massage.

Colour and tinting

Beard tint, grey blending, colour with patch test noted.

Skin and facials

Cleanse, exfoliate, steam, mask, moisturise.

Products and accessories

Oils, sprays, brushes, durags, aftercare kits.

Renewable plans

Monthly cut plans and facial packages paid up front.

Prices, times and stock levels are set per branch and update in the app the moment they change.

THE SKIN ROOM

Clear skin. Clear mind. Clear goals.

- Facials booked like any other service, on their own or added to a cut.
- Skin profile saved once: type, sensitivities, products used.
- Before and after photos stored on the client record, with consent.
- Four week reminder so a facial becomes a habit, not a one off.
- Bundle deals: cut plus facial, or a six session skin package.

Invest in your skin. It is going to represent you for a long time.

Why they come back

Retention is a feature, not a hope.

Your cut is due

We learn each client cycle and message at the right moment, not randomly.

Points on every dollar

Points on cuts, skin and products. Redeem for a wash, a tint or a facial.

Referral code

Share the code, both sides get credit once the friend sits in the chair.

Style history

Last cut, guard numbers, colour used. Any barber can repeat it exactly.

Monthly plans

Pay once, cut all month. Predictable income for us, savings for them.

Rate the visit

A quick rating after each visit. Low scores reach the manager first.

One system, every branch

Owner view on top, branch view underneath.

Branch and chair control

Add a branch, add barbers, set hours and each chair rate.

Stock that talks to the till

Product sold at the counter drops the branch stock count.

Daily numbers

Takings by branch, by barber, by service. Cash and mobile money split.

House call routing

Jobs go to the nearest available barber with travel fee applied.

OWNER DASHBOARD

48

Clients served today

6 of 8

Chairs busy right now

61%

Repeat visit rate

Sample view. Real figures pull from the till.

Always one tap away

The app, the chat and the socials all point back to a booking.

WhatsApp booking

Book, reschedule, check a price or send a photo without opening the app.

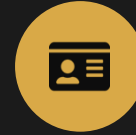

Instagram to chair

Every post links to the booking page. Fresh cuts pull the gallery.

Live price list

One published list for all branches. No surprises at the counter.

Client card

Account number, points balance and next booking on one screen.

Josiah Chinamano and Blackstone Avenue, Harare Avenues

How we roll it out

Start small at one branch, prove it, then scale.

Phase 1

Get the shop running

- Reception check in and queue
- Account numbers and WhatsApp welcome
- Full service and product price list

Phase 2

Put it in their hands

- Client app and QR check in
- Style gallery and photo uploads
- Points, reminders and referrals

Phase 3

Grow the group

- Second branch on the same system
- House call routing and travel fees
- Owner dashboard and monthly plans

Next step: agree the service list and prices, then set up branch one and log every walk in from day one.
